Calder PC Floruit floreat (Editorial). 1

McMullen S Soya protein during pregnancy – an opportunity to attenuate the progression of chronic kidney disease? (Invited Commentary). 4

Frederiksen H, Rasmussen SE, Schrøder M, Bysted A, Jakobsen J, Frandsen H, Ravn-Haren G & Mortensen A Dietary supplementation with an extract of lycopene-rich tomatoes does not reduce atherosclerosis in Watanabe Heritable Hyperlipidemic rabbits (Short Communication). 6

Robitaille J, Houde A, Lemieux S, Gaudet D, Pérusse L & Vohl M-C The lipoprotein/lipid profile is modulated by a gene–diet interaction effect between polymorphisms in the liver X receptor-$\alpha$ and dietary cholesterol intake in French-Canadians. 11

Grant MM, Mistry N, Lunec J & Griffiths HR Dose-dependent modulation of the T cell proteome by ascorbic acid. 19

Ferreira CLP, Macêdo GM, Latorraca MQ, Arantes VC, Veloso RV, Carneiro EM, Boschero AC, Nascimento CMO & Gaíva MH Serum leptin and insulin levels in lactating protein-restricted rats: implications for energy balance. 27

Kloareg M, Noblet J & van Milgen J Deposition of dietary fatty acids, *de novo* synthesis and anatomical partitioning of fatty acids in finishing pigs. 35

Montagne L, Boudry G, Favier C, Le Huërou-Luron I, Lallès J-P & Sève B Main intestinal markers associated with the changes in gut architecture and function in piglets after weaning. 45

Rasooly R, Kelley DS, Greg J & Mackey BE Dietary *trans* 10, *cis* 12-conjugated linoleic acid reduces the expression of fatty acid oxidation and drug detoxification enzymes in mouse liver. 58

Ardiansyah, Shirakawa H, Koseki T, Hashizume K & Komai M The Driselase-treated fraction of rice bran is a more effective dietary factor to improve hypertension, glucose and lipid metabolism in stroke-prone spontaneously hypertensive rats compared to ferulic acid. 67

Cahill LE, Yu-Chen Peng C, Bankovic-Calic N, Sankaran D, Ogborn MR & Aukema HM Dietary soya protein during pregnancy and lactation in rats with hereditary kidney disease attenuates disease progression in offspring 77

Lim JS, Adachi Y, Takahashi Y & Ide T Comparative analysis of sesame lignans (sesamin and sesamolin) in affecting hepatic fatty acid metabolism in rats. 85

Peran L, Sierra S, Comalada M, Lara-Villoslada F, Bailón E, Nieto A, Concha Á, Olivares M, Zarzuelo A, Xaus J & Gálvez J A comparative study of the preventative effects exerted by two probiotics, *Lactobacillus reuteri* and *Lactobacillus fermentum*, in the trinitrobenzene-sulfonic acid model of rat colitis. 96

Normanton H, Houdijk JGM, Jessop NS, Knox DP & Kyriazakis I The effects of changes in nutritional demand on gastrointestinal parasitism in lactating rats 104

Holmberg H, Wahlberg J, Vaarala O & Ludvigsson J Short duration of breast-feeding as a risk-factor for $\beta$-cell autoantibodies in 5-year-old children from the general population. 111

Kang J-H, Lee G-S, Jeung E-B & Yang M-P *Trans*-10, *cis*-12-conjugated linoleic acid increases phagocytosis of porcine peripheral blood polymorphonuclear cells *in vitro*. 117

Alvaro E, Andrieux C, Rochet V, Rigottier-Gois L, Lepercq P, Sutren M, Galan P, Duval Y, Juste C & Doré J Composition and metabolism of the intestinal microbiota in consumers and non-consumers of yogurt. 126

Bird AR, Vuaran M, Brown I & Topping DL Two high-amylose maize starches with different amounts of resistant starch vary in their effects on fermentation, tissue and digesta mass accretion, and bacterial populations in the large bowel of pigs. 134

Gomna A & Rana K Inter-household and intra-household patterns of fish and meat consumption in fishing communities in two states in Nigeria 145

Madatuwa TMJC, Mahawithanage STC, Chandrika UG, Jansz ER & Wickremasinghe AR Evaluation of the effectiveness of the national vitamin A supplementation programme among school children in Sri Lanka. 153

Chen Y-m, Teucher B, Tang X-y, Dainty JR, Lee KKC, Woo JLF & Ho SC Calcium absorption in postmenopausal Chinese women: a randomized crossover intervention study. 160

Gibson RS, Manger MS, Krittaphol W, Pongcharoen T, Gowachirapant S, Bailey KB & Winichagoon P Does zinc deficiency play a role in stunting among primary school children in NE Thailand? 167

Brekke HK, van Odijk J & Ludvigsson J Predictors and dietary consequences of frequent intake of high-sugar, low-nutrient foods in 1-year-old children participating in the ABIS study. 176

Piccoli A, Pastori G, Codognotto M & Paoli A Equivalence of information from single frequency *v.* bioimpedance spectroscopy in bodybuilders. 182

Reid M, Hammersley R, Hill AJ & Skidmore P Long-term dietary compensation for added sugar: effects of supplementary sucrose drinks over a 4-week period. 193

Hughes AR, McLaughlin R, Mckay J, Lafferty K, McKay T & Mutrie N The B'Active programme for overweight primary school children in Glasgow: determining the prevalence of overweight and obesity and piloting an activity intervention. 204

Li Y, Zhai F, Yang X, Schouten EG, Hu X, He Y, Luan D & Ma G Determinants of childhood overweight and obesity in China. 210

Westerterp-Plantenga MS How are normal, high- or low-protein diets defined? (Invited Commentary). 217

Waijers PMCM, Feskens EJM & Ocké MC A critical review of predefined diet quality scores (Review Article). 219

Rashid R, Neill E, Maxwell H & Ahmed SF Growth and body composition in children with chronic kidney disease (Review Article). 232

Andersen HS, Gambling L, Holtrop G & McArdle HJ Effect of dietary copper deficiency on iron metabolism in the pregnant rat. 239

Kwon C-S, Kountouri AM, Mayer C, Gordon M-J, Kwun I-S & Beattie JH Mononuclear cell metallothionein mRNA levels in human subjects with poor zinc nutrition. 247

Ruiz JR, Hurtig-Wennlöf A, Ortega FB, Patterson E, Nilsson TK, Castillo MJ & Sjöström M Homocysteine levels in children and adolescents are associated with the methylenetetrahydrofolate reductase 677C>T genotype, but not with physical activity, fitness or fatness: The European Youth Heart Study. 255

Oliveros LB, Domeniconi MA, Vega VA, Gatica LV, Brigada AM & Gimenez MS Vitamin A deficiency modifies lipid metabolism in rat liver. 263

Nazare J-A, de la Perrière AB, Bonnet F, Desage M, Peyrat J, Maitrepierre C, Louche-Pelissier C, Bruzeau J, Goudable J, Lassel T, Vidal H & Laville M Daily intake of conjugated linoleic acid-enriched yoghurts: effects on energy metabolism and adipose tissue gene expression in healthy subjects. 273

Gilman J & Cashman KD The effect of marine oil-derived *n*-3 fatty acids on transepithelial calcium transport in Caco-2 cell models of healthy and inflamed intestines. 281

Valente LMP, Bandarra NM, Figueiredo-Silva AC, Rema P, Vaz-Pires P, Martins S, Prates JAM & Nunes ML Conjugated linoleic acid in diets for large-size rainbow trout (*Oncorhynchus mykiss*): effects on growth, chemical composition and sensory attributes. 289

Pluske JR, Montagne L, Cavaney FS, Mullan BP, Pethick DW & Hampson DJ Feeding different types of cooked white rice to piglets after weaning influences starch digestion, digesta and fermentation characteristics and the faecal shedding of $\beta$-haemolytic *Escherichia coli*. 298

Borelli P, Blatt S, Pereira J, de Maurino BB, Tsujita M, de Souza CA, Guilherme Xavier J & Ambrósio Fock R Reduction of erythroid progenitors in protein–energy malnutrition. 307

Rose MT, Wolf BT & Haresign W Effect of the level of iodine in the diet of pregnant ewes on the concentration of immunoglobulin G in the plasma of neonatal lambs following the consumption of colostrum. 315

Aherne SA, Kerry JP & O'Brien NM Effects of plant extracts on antioxidant status and oxidant-induced stress in Caco-2 cells. 321

Breithaupt DE, Yahia EM & Velázquez FJV Comparison of the absorption efficiency of $\alpha$- and $\beta$-cryptoxanthin in female Wistar rats. 329

Long KZ, Rosado JL, DuPont HL, Hertzmark E & Santos JI Supplementation with vitamin A reduces watery diarrhoea and respiratory infections in Mexican children. 337

Manganaro R, Marseglia L, Mamì C, Palmara A, Paolata A, Loddo S, Gargano R, Mondello M & Gemelli M Breast milk sodium concentration, sodium intake and weight loss in breast-feeding newborn infants. 344

Seidel C, Boehm V, Vogelsang H, Wagner A, Persin C, Glei M, Pool-Zobel BL & Jahreis G Influence of prebiotics and antioxidants in bread on the immune system, antioxidative status and antioxidative capacity in male smokers and non-smokers 349

Thomson CD, McLachlan SK, Parnell WR, Wilson N, Wohlers M, Scragg R, Schaaf D & Fitzgerald ED Serum selenium concentrations and dietary selenium intake of New Zealand children aged 5–14 years. 357

Holloway L, Moynihan S, Abrams SA, Kent K, Hsu AR & Friedlander AL Effects of oligofructose-enriched inulin on intestinal absorption of calcium and magnesium and bone turnover markers in postmenopausal women. 365

Bügel S, Sørensen AD, Hels O, Kristensen M, Vermeer C, Jakobsen J, Flynn A, Mølgaard C & Cashman KD Effect of phylloquinone supplementation on biochemical markers of vitamin K status and bone turnover in postmenopausal women. 373

Marinangeli CPF, Kassis AN, Jain D, Ebine N, Cunnane SC & Jones PJH Comparison of composition and absorption of sugarcane policosanols. 381

Pérez-Matute P, Pérez-Echarri N, Martínez JA, Marti A & Moreno-Aliaga MJ Eicosapentaenoic acid actions on adiposity and insulin resistance in control and high-fat-fed rats: role of apoptosis, adiponectin and tumour necrosis factor-$\alpha$. 389

Azadbakht L, Mirmiran P, Esmaillzadeh A & Azizi F Better dietary adherence and weight maintenance achieved by a long-term moderate-fat diet. 399

Keogh JB, Luscombe-Marsh ND, Noakes M, Wittert GA & Clifton PM Long-term weight maintenance and cardiovascular risk factors are not different following weight loss on carbohydrate-restricted diets high in either monounsaturated fat or protein in obese hyperinsulinaemic men and women 405

Moran VH A systematic review of dietary assessments of pregnant adolescents in industrialised countries. 411

Jesudason DR, Monteiro MP, McGowan BMC, Neary NM, Park AJ, Philippou E, Small CJ, Frost GS, Ghatei MA & Bloom SR Low-dose pancreatic polypeptide inhibits food intake in man. 426

Bongaerts BWC, de Goeij AFPM, de Vogel S, van den Brandt PA, Goldbohm RA & Weijenberg MP Alcohol consumption and distinct molecular pathways to colorectal cancer. 430

Burdge GC, Slater-Jefferies J, Torrens C, Phillips ES, Hanson MA & Lillycrop KA Dietary protein restriction of pregnant rats in the $F_0$ generation induces altered methylation of hepatic gene promoters in the adult male offspring in the $F_1$ and $F_2$ generations. 435

Reboul E, Thap S, Tourniaire F, André M, Juhel C, Morange S, Amiot M-J, Lairon D & Borel P Differential effect of dietary antioxidant classes (carotenoids, polyphenols, vitamins C and E) on lutein absorption. 440

Jeong Y-J, Choi Y-J, Choi J-S, Kwon H-M, Kang S-W, Bae J-Y, Lee S-S, Kang J-S, Han SJ & Kang Y-H Attenuation of monocyte adhesion and oxidised LDL uptake in luteolin-treated human endothelial cells exposed to oxidised LDL. 447

Luceri C, Giannini L, Lodovici M, Antonucci E, Abbate R, Masini E & Dolara P *p*-Coumaric acid, a common dietary phenol, inhibits platelet activity *in vitro* and *in vivo*. 458

de Heredia FP, Cerezo D, Zamora S & Garaulet M Effect of dehydroepiandrosterone on protein and fat digestibility, body protein and muscular composition in high-fat-diet-fed old rats. 464

Zafeiridis A, Goloi E, Petridou A, Dipla K, Mougios V & Kellis S Effects of low- and high-volume resistance exercise on postprandial lipaemia. 471

Adeola O Efficiency of methionine retention in ducks. 478

Zhang Y, Tie X, Bao B, Wu X & Zhang Y Metabolism of flavone *C*-glucosides and *p*-coumaric acid from antioxidant of bamboo leaves (AOB) in rats. 484

Hamano Y Continuous infusion of lipoic acid rapidly reduces plasma $\beta$-hydroxybutyrate with elevation of non-esterified fatty acids in broiler chickens. 495

Noci F, Monahan FJ, Scollan ND & Moloney AP The fatty acid composition of muscle and adipose tissue of steers offered unwilted or wilted grass silage supplemented with sunflower oil and fishoil. 502

Hannan JMA, Ali L, Rokeya B, Khaleque J, Akhter M, Flatt PR & Abdel-Wahab YHA Soluble dietary fibre fraction of *Trigonella foenum-graecum* (fenugreek) seed improves glucose homeostasis in animal models of type 1 and type 2 diabetes by delaying carbohydrate digestion and absorption, and enhancing insulin action. 514

Balcázar JL, de Blas I, Ruiz-Zarzuela I, Vendrell D, Calvo AC, Márquez I, Gironés O & Muzquiz JL Changes in intestinal microbiota and humoral immune response following probiotic administration in brown trout (*Salmo trutta*). 522

Hillyer LM, Maliwichi HE & Woodward B Blood serum interferon-$\gamma$ bioactivity is low in weanling mice subjected to acute deficits of energy or both protein and energy. 528

Toden S, Bird AR, Topping DL & Conlon MA Differential effects of dietary whey, casein and soya on colonic DNA damage and large bowel SCFA in rats fed diets low and high in resistant starch. 535

Roe MA, Spinks C, Heath A-LM, Harvey LJ, Foxall R, Wimperis J, Wolf C & Fairweather-Tait SJ Serum prohepcidin concentration: no association with iron absorption in healthy men; and no relationship with iron status in men carrying *HFE* mutations, hereditary haemochromatosis patients undergoing phlebotomy treatment, or pregnant women. 544

Gaullier J-M, Halse J, Høivik HO, Høye K, Syvertsen C, Nurminiemi M, Hassfeld C, Einerhand A, O'Shea M & Gudmundsen O Six months supplementation with conjugated linoleic acid induces regional-specific fat mass decreases in overweight and obese. 550

McNaughton SA, Hughes MC & Marks GC Validation of a FFQ to estimate the intake of PUFA using plasma phospholipid fatty acids and weighed foods records. 561

Hininger-Favier I, Andriollo-Sanchez M, Arnaud J, Meunier N, Bord S, Graham C, Polito A, Maiani G, O'Connor JM, Coudray C & Roussel A-M Age- and sex-dependent effects of long-term zinc supplementation on essential trace element status and lipid metabolism in European subjects: the Zenith Study. 569

Harper A, James A, Flint A & Astrup A Increased satiety after intake of a chocolate milk drink compared with a carbonated beverage, but no difference in subsequent *ad libitum* lunch intake. 579

Poortvliet PC, Bérubé-Parent S, Drapeau V, Lamarche B, Blundell JE & Tremblay A Effects of a healthy meal course on spontaneous energy intake, satiety and palatability. 584

Harris WS *n*-3 Fatty acid fortification: opportunities and obstacles (Invited Commentary). 593

Fraser DR Exploration of possible mechanisms linking vitamin D status and dietary calcium to prostate cancer (Invited Commentary). 596

Michalski M-C On the supposed influence of milk homogenization on the risk of CVD, diabetes and allergy (Review Article). 598

Bonjour J-P, Chevalley T & Fardellone P Calcium intake and vitamin D metabolism and action, in healthy conditions and in prostate cancer (Review Article). 611

Friso S, Lamon-Fava S, Jang H, Schaefer EJ, Corrocher R & Choi S-W Oestrogen replacement therapy reduces total plasma homocysteine and enhances genomic DNA methylation in postmenopausal women. 617

Pérez-Martínez P, Pérez-Jiménez F, Ordovás JM, Moreno JA, Moreno R, Fuentes F, Ruano J, Gómez P, Marín C & López-Miranda J The *APOB* -516C/T polymorphism is associated with differences in insulin sensitivity in healthy males during the consumption of diets with different fat content. 622

Acín S, Navarro MA, Perona JS, Surra JC, Guillen N, Arnal C, Sarría AJ, Arbonés-Mainar JM, Carnicer R, Ruiz-Gutiérrez V & Osada J Microarray analysis of hepatic genes differentially expressed in the presence of the unsaponifiable fraction of olive oil in apolipoprotein E-deficient mice. 628

Guarnieri S, Riso P & Porrini M Orange juice *vs* vitamin C: effect on hydrogen peroxide-induced DNA damage in mononuclear blood cells. 639

Rungapamestry V, Duncan AJ, Fuller Z & Ratcliffe B Effect of meal composition and cooking duration on the fate of sulforaphane following consumption of broccoli by healthy human subjects. 644

Kruger MJ, Engelbrecht A-M, Esterhuyse J, du Toit EF & van Rooyen J Dietary red palm oil reduces ischaemia–reperfusion injury in rats fed a hypercholesterolaemic diet. 653

O'Connor E, Mølgaard C, Michaelsen KF, Jakobsen J, Lamberg-Allardt CJE & Cashman KD Serum percentage undercarboxylated osteocalcin, a sensitive measure of vitamin K status, and its relationship to bone health indices in Danish girls. 661

van den Borne JJGC, Hocquette J-F, Verstegen MWA & Gerrits WJJ Whole body and muscle energy metabolism in preruminant calves: effects of nutrient synchrony and physical activity. 667

Roller M, Clune Y, Collins K, Rechkemmer G & Watzl B Consumption of prebiotic inulin enriched with oligofructose in combination with the probiotics *Lactobacillus rhamnosus* and *Bifidobacterium lactis* has minor effects on selected immune parameters in polypectomised and colon cancer patients. 676

Chiu W-C, Hou Y-C, Yeh C-L, Hu Y-M & Yeh S-L Effect of dietary fish oil supplementation on cellular adhesion molecule expression and tissue myeloperoxidase activity in diabetic mice with sepsis. 685

Yu Y-M, Wang Z-H, Liu C-H & Chen C-S Ellagic acid inhibits IL-1$\beta$-induced cell adhesion molecule expression in human umbilical vein endothelial cells. 692

Bakke-McKellep AM, Penn MH, Salas PM, Refstie S, Sperstad S, Landsverk T, Ringø E & Krogdahl Å Effects of dietary soyabean meal, inulin and oxytetracycline on intestinal microbiota and epithelial cell stress, apoptosis and proliferation in the teleost Atlantic salmon (*Salmo salar* L.). 699

Lan A, Bruneau A, Philippe C, Rochet V, Rouault A, Hervé C, Roland N, Rabot S & Jan G Survival and metabolic activity of selected strains of *Propionibacterium freudenreichii* in the gastrointestinal tract of human microbiota-associated rats. 714

Raz I, Gollop N, Polak-Charcon S & Schwartz B Isolation and characterisation of new putative probiotic bacteria from human colonic flora. 725

Rist L, Mueller A, Barthel C, Snijders B, Jansen M, Simões-Wüst AP, Huber M, Kummeling I, von Mandach U, Steinhart H & Thijs C Influence of organic diet on the amount of conjugated linoleic acids in breast milk of lactating women in the Netherlands. 735

Tuomasjukka S, Viitanen M & Kallio H The glycaemic response to rolled oat is not influenced by the fat content. 744

Murphy KJ, Meyer BJ, Mori TA, Burke V, Mansour J, Patch CS, Tapsell LC, Noakes M, Clifton PA, Barden A, Puddey IB, Beilin LJ & Howe PRC Impact of foods enriched with *n*-3 long-chain polyunsaturated fatty acids on erythrocyte *n*-3 levels and cardiovascular risk factors. 749

Bertram HC, Hoppe C, Petersen BO, Duus JØ, Mølgaard C & Michaelsen KF An NMR-based metabonomic investigation on effects of milk and meat protein diets given to 8-year-old boys. 758

Chang S-J, Hsiao L-J, Lee Y-C & Hsuen S-Y Vitamin $B_6$ status assessment in relation to dietary intake in high school students aged 16–18 years. 764

Suzuki YA, Tomoda M, Murata Y, Inui H, Sugiura M & Nakano Y Antidiabetic effect of long-term supplementation with *Siraitia grosvenori* on the spontaneously diabetic Goto–Kakizaki rat. 770

Lobo AR, Colli C, Alvares EP & Filisetti TMCC Effects of fructans-containing yacon (*Smallanthus sonchifolius* Poepp & Endl.) flour on caecum mucosal morphometry, calcium and magnesium balance, and bone calcium retention in growing rats. 776

Höglund E, Sørensen C, Bakke MJ, Nilsson GE & Øverli Ø Attenuation of stress-induced anorexia in brown trout (*Salmo trutta*) by pre-treatment with dietary L-tryptophan. 786

Bellisle F, Dalix AM, De Assis MA, Kupek E, Gerwig U, Slama G & Oppert JM Motivational effects of 12-week moderately restrictive diets with or without special attention to the Glycaemic Index of foods. 790

de Assis MAA, Rolland-Cachera MF, de Vasconcelos FAG, Bellisle F, Conde W, Calvo MCM, Luna MEP, Ireton MJ & Grosseman S Central adiposity in Brazilian schoolchildren aged 7–10 years. 799

Yaqoob P Book Review. 806

Parker JK Book Review. 807

Sugden MC In appreciation of Sir Philip Randle: The glucose-fatty acid cycle. 809

Neu J Arginine supplementation for neonatal necrotizing enterocolitis: are we ready? (Invited Commentary). 814

Sirtori CR, Eberini I & Arnoldi A Hypocholesterolaemic effects of soya proteins: results of recent studies are predictable from the Anderson meta-analysis data (Review Article). 816

Colomer R, Moreno-Nogueira JM, García-Luna PP, García-Peris P, García-de-Lorenzo A, Zarazaga A, Quecedo L, del Llano J, Usán L & Casimiro C *n*-3 Fatty acids, cancer and cachexia: a systematic review of the literature (Systematic Review). 823

Rennie KL & Livingstone MBE Associations between dietary added sugar intake and micronutrient intake: a systematic review (Systematic Review). 832

Hodgson JM, Puddey IB, van Bockxmeer FM & Burke V Acute effects of tea on fasting and non-fasting plasma total homocysteine concentrations in human subjects (Short Communication). 842

Helwig U, Rubin D, Kiosz J, Schreiber S, Fölsch UR, Nothnagel M, Döring F & Schrezenmeir J The minor allele of the PPAR$\gamma$2 Pro12Ala polymorphism is associated with lower postprandial TAG and insulin levels in non-obese healthy men. 847

Chang C-M, Yu C-C, Lu H-T, Chou Y-F & Huang R-FS Folate deprivation promotes mitochondrial oxidative decay: DNA large deletions, cytochrome *c* oxidase dysfunction, membrane depolarization and superoxide overproduction in rat liver. 855

Jofre-Monseny L, de Pascual-Teresa S, Plonka E, Huebbe P, Boesch-Saadatmandi C, Minihane A-M & Rimbach G Differential effects of apolipoprotein E3 and E4 on markers of oxidative status in macrophages. 864

Luci S, König B, Giemsa B, Huber S, Hause G, Kluge H, Stangl GI & Eder K Feeding of a deep-fried fat causes PPARα activation in the liver of pigs as a non-proliferating species. 872

Dhuique-Mayer C, Borel P, Reboul E, Caporiccio B, Besancon P & Amiot M-J β-Cryptoxanthin from *Citrus* juices: assessment of bioaccessibility using an *in vitro* digestion/Caco-2 cell culture model. 883

Bujko J, Schreurs VVAM, Nolles JA, Verreijen AM, Koopmanschap RE & Verstegen MWA Application of a [$^{13}CO_2$] breath test to study short-term amino acid catabolism during the postprandial phase of a meal. 891

Ruvini L, Hashimoto N, Han K-H, Kajiura T, Watanabe S, Shimada K-i, Sekikawa M, Ohba K & Fukushima M Some bovine proteins behave as dietary fibres and reduce serum lipids in rats. 898

Richir MC, Siroen MPC, van Elburg RM, Fetter WPF, Quik F, Nijveldt RJ, Heij HA, Smit BJ, Teerlink T & van Leeuwen PAM Low plasma concentrations of arginine and asymmetric dimethylarginine in premature infants with necrotizing enterocolitis. 906

Maloney CA, Lilley C, Czopek A, Hay SM & Rees WD Interactions between protein and vegetable oils in the maternal diet determine the programming of the insulin axis in the rat. 912

Maffei F, Tarozzi A, Carbone F, Marchesi A, Hrelia S, Angeloni C, Cantelli Forti G & Hrelia P Relevance of apple consumption for protection against oxidative damage induced by hydrogen peroxide in human lymphocytes. 921

Sauer J, Richter KK & Pool-Zobel BL Products formed during fermentation of the prebiotic inulin with humangut flora enhance expression of biotransformation genes in human primary colon cells. 928

Yáñez-Ruiz DR, Williams S & Newbold CJ The effect of absence of protozoa on rumen biohydrogenation and the fatty acid composition of lamb muscle. 938

Gigante DP, Victora CG, Horta BL & Lima RC Undernutrition in early life and body composition of adolescent males from a birth cohort study. 949

Le HT, Brouwer ID, Nguyen KC, Burema J & Kok FJ The effect of iron fortification and deworming on anaemia and iron status of Vietnamese schoolchildren. 955

Azzini E, Bugianesi R, Romano F, Di Venere D, Miccadei S, Durazzo A, Foddai MS, Catasta G, Linsalata V & Maiani G Absorption and metabolism of bioactive molecules after oral consumption of cooked edible heads of *Cynara scolymus* L. (cultivar Violetto di Provenza) in human subjects: a pilot study. 963

Rohner F, Zimmermann MB, Wegmueller R, Tschannen AB & Hurrell RF Mild riboflavin deficiency is highly prevalent in school-age children but does not increase risk for anaemia in Côte d'Ivoire. 970

Vioque J, Weinbrenner T, Asensio L, Castelló A, Young IS & Fletcher A Plasma concentrations of carotenoids and vitamin C are better correlated with dietary intake in normal weight than overweight and obese elderly subjects. 977

Thane CW, Jones AR, Stephen AM, Seal CJ & Jebb SA Comparative whole-grain intake of British adults in 1986–7 and 2000–1. 987

Villegas R, Yang G, Liu D, Xiang Y-B, Cai H, Zheng W & Ou Shu X Validity and reproducibility of the food-frequency questionnaire used in the Shanghai Men's Health Study. 993

Lambert EV, Goedecke JH, Bluett K, Heggie K, Claassen A, Rae DE, West S, Dugas J, Dugas L, Meltzer S, Charlton K & Mohede I Conjugated linoleic acid versus high-oleic acid sunflower oil: effects on energy metabolism, glucose tolerance, blood lipids, appetite and body composition in regularly exercising individuals . 1001

Puel C, Mardon J, Kati-coulibaly S, Davicco M-J, Lebecque P, Obled C, Rock E, Horcajada M-N, Agalias A, Skaltsounis LA & Coxam V Black Lucques olives prevented bone loss caused by ovariectomy and talc granulomatosis in rats. 1012

Cunnane SC Docosahexaenoic acid and human brain evolution: missing the forest for the trees – Comments by Cunnane (Nutrition Discussion Forum). 1021

Milligan LA Is docosahexaenoic acid a red herring for the aquatic diet? – Comments by Milligan and Bazinet (Nutrition Discussion Form). 1023

Langdon JH Aquatic diet and brain evolution – Reply by Langdon (Nutrition Discussion Forum). 1025

Gill C Book Review. 1026
Brown L & van der Ouderaa F Nutritional genomics: food industry applications from farm to fork (Horizons in Nutritional Science). 1027
Burdge GC, Hanson MA, Slater-Jefferies JL & Lillycrop KA Epigenetic regulation of transcription: a mechanism for inducing variations in phenotype (fetal programming) by differences in nutrition during early life? (Horizons in Nutritional Science). 1036
Whitfield P Exploring genomes in agriculture and food science (Invited Commentary). 1047
Poppitt SD Soluble fibre oat and barley ß-glucan enriched products: can we predict cholesterol-lowering effects? (Invited Commentary). 1049
Rosenberg IH Further evidence that food fortification improves micronutrient status (Invited Commentary). 1051
Canali R, Ambra R, Stelitano C, Mattivi F, Scaccini C & Virgili F A novel model to study the biological effects of red wine at the molecular level (Short Communication). 1053
Hall KD Body fat and fat-free mass inter-relationships: Forbes's theory revisited (Short Communication). 1059
Lillycrop KA, Slater-Jefferies JL, Hanson MA, Godfrey KM, Jackson AA & Burdge GC Induction of altered epigenetic regulation of the hepatic glucocorticoid receptor in the offspring of rats fed a protein-restricted diet during pregnancy suggests that reduced DNA methyltransferase-1 expression is involved in impaired DNA methylation and changes in histone modifications. 1064
Ribot J, Portillo MP, Picó C, Teresa Macarulla M & Palou A Effects of *trans*-10, *cis*-12 conjugated linoleic acid on the expression of uncoupling proteins in hamsters fed an atherogenic diet. 1074
Rasmusen C, Moinard C, Martin C, Tricottet V, Cynober L & Couderc R L-Arginine plus atorvastatin for prevention of atheroma formation in genetically hypercholesterolaemic rabbits. 1083
Maloney CA, Hay SM & Rees WD Folate deficiency during pregnancy impacts on methyl metabolism without affecting global DNA methylation in the rat fetus. 1090
Lobley GE, Bremner DM, Holtrop G, Johnstone AM & Maloney CA Impact of high-protein diets with either moderate or low carbohydrate on weight loss, body composition, blood pressure and glucose tolerance in rats. 1099
Oliver SJ, Laing SJ, Wilson S, Bilzon JLJ, Walters R & Walsh NP Salivary immunoglobulin A response at rest and after exercise following a 48 h period of fluid and/or energy restriction. 1109
Nerstedt A, Nilsson EC, Ohlson K, Håkansson J, Svensson LT, Löwenadler B, Svensson UK & Mahlapuu M Administration of *Lactobacillus* evokes coordinated changes in the intestinal expression profile of genes regulating energy homeostasis and immune phenotype in mice. 1117
Thymann T, Sørensen KU, Hedemann MS, Elnif J, Jensen BB, Banga-Mboko H, Leser TD & Sangild PT Antimicrobial treatment reduces intestinal microflora and improves protein digestive capacity without changes in villous structure in weanling pigs. 1128
González S, Huerta JM, Fernández S, Patterson ÁM & Lasheras C Homocysteine increases the risk of mortality in elderly individuals. 1138
Mukuddem-Petersen J, Stonehouse (Oosthuizen) W, Jerling JC, Hanekom SM & White Z Effects of a high walnut and high cashew nut diet on selected markers of the metabolic syndrome: a controlled feeding trial. 1144
Figler M, Gasztonyi B, Cseh J, Horváth G, Kisbenedek AG, Bokor S & Decsi T Association of *n*-3 and *n*-6 long-chain polyunsaturated fatty acids in plasma lipid classes with inflammatory bowel diseases. 1154
Keenan JM, Goulson M, Shamliyan T, Knutson N, Kolberg L & Curry L The effects of concentrated barley $\beta$-glucan on blood lipids in a population of hypercholesterolaemic men and women. 1162
Rennie KL, Coward A & Jebb SA Estimating under-reporting of energy intake in dietary surveys using an individualised method. 1169
Hannon EM, Kiely M & Flynn A The impact of voluntary fortification of foods on micronutrient intakes in Irish adults. 1177
Yokozawa T, Young Kim H, Ju Kim H, Okubo T, Chu D-C & Raj Juneja L Amla (*Emblica officinalis* Gaertn.) prevents dyslipidaemia and oxidative stress in the ageing process. 1187

Kuhnt K, Kraft J, Vogelsang H, Eder K, Kratzsch J & Jahreis G Dietary supplementation with *trans*-11- and *trans*-12-18 : 1 increases *cis*-9, *trans*-11-conjugated linoleic acid in human immune cells, but without effects on biomarkers of immune function and inflammation. 1196
Tolkamp BJ, Yearsley JM, Gordon IJ, Illius AW, Speakman JR & Kyriazakis I Predicting the effects of body fatness on food intake and performance of sheep. 1206
Lawson M Book Review. 1216
